

***LUBRICATION ENGINEERS<sup>®</sup>, Inc.***  
***LEADERS IN LUBRICANTS***

April 12, 2010

To Whom It May Concern:

Lubrication Engineers, Inc. (LE) warrants the use of its products. LE will assume responsibility for parts and labor for any failure caused by LE Products not meeting LE specifications.

This warranty is contingent upon the fact that you, as equipment owner/operator, perform all the necessary maintenance on the unit as specified by the equipment manufacturer and LE. However, LE assumes no warranty responsibility for OEM manufacturing, design and/or production defects of the equipment.

In the event of any failure, LE would require failed parts, and new and used lubricant samples to determine the cause of the failure.

LE's liability would be limited to parts and labor. No other warranty is expressed or implied. LE is not responsible for incidental or consequential damages, including, but not restricted to, downtime expense, loss of productivity, or other costs resulting from the failure.

Sincerely,

Jeffrey E. Turner, P.E.  
Executive Vice President
