

LUBRICATION ENGINEERS, Inc.
LEADERS IN LUBRICANTS

CERTIFICATE

Lubrication Engineers, Inc. Lubricants are suitable for use in Angelus equipment; provided the LE Lubricant used meets the OEM Lubrication specification as published in the equipment operator's manual. LE recommends taking periodic oil samples for analysis to monitor the oil condition and to establish a safe oil drain interval.

Lubrication Engineers warrants the use of its products, as per the attached statement. There are many successful customer feedback reports available on LE Inc's corporate website, www.le-inc.com, for proof of performance in this type of equipment and similar applications.
